

Plan Comparison Chart

A comparison of HSA, HRA and FSAs

Healthcare accounts are not all created equal. To help you understand the differences between HSAs, HRAs and FSAs take a look at the comparison chart below.

	 Health Savings Account	 Health Reimbursement Account	 Flexible Spending Account
Definition	An HSA is a tax-advantaged savings account that is used in combination with a high deductible health plan (HDHP). Consumers use the HSA funds to cover qualified medical expenses.	An HRA is an employer-funded plan that may be used to reimburse employees for qualified medical expenses.	An employer-established, tax-advantaged account funded by the employee and/or the employer to pay for qualified medical expenses with pre-tax dollars.

1. IRS-imposed HSA limits for 2018: The 2018 annual HSA contribution limit for individuals with self-only HDHP coverage is \$3,450 (a \$50 increase from 2017), and the limit for individuals with family HDHP coverage is \$6,900 (a \$150 increase from 2017). Annual catch-up contributions for those 55 and over: \$1,000 (unchanged from 2017).

2. IRS does not impose HRA limits; limits are set by employer.

3. Employee contribution limits for 2018 for FSAs will be announced by the IRS; for 2017, the limit for an FSA cannot exceed \$2,600 per IRS Rules. Employer contributions may not discriminate in favor of highly compensated individuals. Healthcare reform limits employer contributions to \$500 per year or an arrangement in which employer contributions will not exceed the employee’s contributions, such as a one-to-one match, up to \$2,600.

4. HSA, HRA and FSA debit cards are automatically restricted for use with medical service providers and for items purchased at retail that are identified as qualified medical expenses based on electronic inventory control codes.

What is the tax treatment for employee contributions?	Employee contributions may be made through a cafeteria plan and are tax free. If made outside of a cafeteria plan, they are treated as an “above the line” deduction.	Employees are not permitted to contribute to an HRA.	Employee contributions to an FSA are made on a pre-tax basis, and therefore reduce annual taxable income.
What expenses qualify for distribution?	Medical expenses under § 213 (d) of the Internal Revenue Code (over the counter drugs are not an eligible medical expense unless prescribed by a health care provider). HSAs may not be used to pay insurance premiums except for (1) COBRA, (2) qualified long-term care insurance (3) health care coverage while the individual is receiving unemployment compensation; and (4) premiums for Medicare Part A or B, Medicare HMO, and (5) after age 65, the employee's share of employer-sponsored retiree health care	Employers configure the account to reimburse all or a subset of any otherwise unreimbursed expenses that are qualified under §213(d) of IRC (over the counter drugs are not an eligible medical expense unless prescribed by a health care provider). This can include health insurance premiums (other than premiums that are paid through an employer's cafeteria plan) and long-term care insurance premiums. However, long-term care services are not reimbursable.	Any otherwise unreimbursed medical expenses that are defined under §213(d) of IRC (over the counter drugs are not an eligible medical expense unless prescribed by a health care provider). Health insurance premiums and long-term care services are not reimbursable.
